Lui Ming Choi Lutheran College

4A Kayee

I am Kayee, the chairperson of the English Society this year. I have participated in the English Society for four years. Being a leading member of the society was an incredible experience for me.

As a chairperson, I hope all members of the English society enjoyed our activities this year and continue to participate in the next school year. I encourage you to share any ideas and suggestions you have. Together we can explore our potential to meaningful experiences. At the same time, we always welcome new members to join our family to find inspiration and enrich your school life.

5A Carman Wong

Hello everyone, I'm Carman from 5A, and I couldn't be more thrilled and honored to be the Chairperson of the English Society this year. First of all, I want to thank every one for your support for all of our events. We really appreciate your active participation in joining the events. I'm truly touched by the effort you put into speaking and learning English, and I'm so proud of each and every one of you.

Moreover, I am elated to share that the American team visited our school this year! It was a fantastic opportunity for us to catch up with our longtime friends, and spend memorable moments together. Having lessons with them not only helped us improve our English conversation skills, but also provided us with a wonderful chance for cultural exchange and broadening our horizons. Let's work hand in hand to make our campus life unforgettable and super rewarding.

In Him We Unite and Shine Bright

Verse 1:

In Him our school shines bright,
Where faith, hope, and love guide us right.
We learn the truth that sets us free
And make a difference as we were meant to be.

Chorus:

Our school is our home, where we belong,
Where we learn, create, and grow strong.
Together we stand, united as one,
As we journey towards a brighter future to come.

Verse 2:

In His love we find our strength.
With His grace, we'll go any length.
We won't give in, we'll stand up tall
And make our dreams come true, one and all.

Chorus:

Our school is our home, where we belong,
Where we learn, create, and grow strong.
Together we stand, united as one,
As we journey towards a brighter future to come.

In order to celebrate the 45th Anniversary of LLC, the English Department composed a song together with meaningful lyrics to spread joy with all LLC members. Under the guidance of God, all teaching staff and students worked together to make the school better. With the beliefs of faith, hope and love, school leads us a peaceful journey towards a brighter future. Students and teachers performed with confidence on stage and we shined bright.

SONG DEDICATION

6A Jennifer Li

Since I was a child, I have loved singing very much and wanted to have my own stage for myself to showcase my talent. Fortunately, English Society gave me several precious opportunities to perform and to express myself through my voice.

This year, I had the honor to take part in the Song Dedication, which was an unforgettable experience for me. I still remember that I chose the song "A Million Dreams". The reason for me to choose this song is not only the beautiful melody, but the lyrics are also meaningful. My favorite line is "We can live in a world that we design". To be honest, I used to care a lot about other people's opinion and gossip, but this song reminds me that we can live a wonderful life regardless of what the other people think. As long as we work hard enough, we can also realize our dreams. This is also the message which I want to share with all of you.

If you have something that you want to express but don't know how to say it, your voice and songs are also a great outlet. I hope all of you can express yourselves bravely and pursue your dreams courageously. At the same time, cherishing this place as LLC is a stage that belongs to all of us.

1A Raia

The fun fair took place when our school invited our American friends and organized an event called "Campus Carnival" during the 30-minute lunch recess. Almost the entire school rushed down to the school hall to participate in various games and enjoy the Carnival atmosphere. There were plenty of exciting games like Lucky Lane Carnival, Math Matching Game, An Amazing Adventure, Jolly School Clubs, and more.

Among all the games, my favorite was Jolly School Clubs. It was a basketball game where you shoot a basketball into a hoop with a picture above it representing different school clubs. I loved this game because it was easy to play, and it allowed us to learn about the various school clubs. It tested our memory of the clubs and our basketball shooting skills.

Personally, the Carnival was incredibly fun. We had games, prizes, and even a lucky draw. I enjoyed most of it with my friends, including our American friends. I hope I get the chance to see our American friends again and experience another Carnival. Among all the activities I've participated in this year, the Campus Carnival was the most enjoyable one.

CAMPUS CARNIVAL

INTERNATIONAL INTERFACE

1A Bibi Fatma

Recently, our school hosted a vibrant group from the International Interface (II) for a week-long cultural exchange. Elijah, Thomas, Tony, Rob, Denise, and Roxanne visited our school and we had a great time together, making new friends and sharing lots of experiences.

We took our guests on a tour of our school, showing them what we do every day. They joined our English and Chinese classes, where we learned about Chinese culture and history. We even tried Chinese calligraphy together!

During our English lesson, we sang songs and laughed a lot. Tony led us in some songs, and we all

felt really happy. We also worked on a thought-provoking worksheet with words like "peaceful" and "graceful" in the context of Jesus. The lesson was fun and we learnt more about god's love. It is for sure that this is one of my favourite lessons I have had in LLC.

During their stay at school, we had lots of chitchat, from hobbies to culture. I specially enjoyed talking to Danise, his humor always made me laugh.

When they bid us adieu, we felt both sad and happy because we had such a wonderful week together. We will always remember this special time and the new friends we made.

4A Max Chiu

I had an unforgettable day trip with our American friends at the Hong Kong Palace Museum. We were awestruck by the incredible gifts given to the emperor of China.

After exploring the museum, we treated ourselves to a delightful lunch at a restaurant overlooking Victoria Harbour. The pleasant atmosphere and scenic views made the experience even more enjoyable. Feeling energized, we headed to the vibrant Ladies' Market and split into groups for some shopping excitement.

That day reminded me of the power of friendship and the enriching experiences that come from embracing different cultures. The laughter and conversations we shared will forever remain etched in my memory, a testament to the bonds we formed during that remarkable adventure.

6 INTER-SCHOOL SPEAKING PRACTICE

To better prepare senior form students for the public exam, the English Department organized inter-school speaking practices with various secondary schools.

Students gained valuable experience from the activity and learnt different speaking strategies. They treasured the time spent during the activity and enjoyed it as an invaluable experience.

7 75TH HONG KONG SCHOOLS SPEECH FESTIVAL

1 to S5 students signed up for the 75th Hong Kong Schools Speech Festival. It was encouraging that **4A O Ka Yee** got the champion in the competition.

5C Asher Li

When Mr. Kai asked me for help, I felt quite nervous. I didn't think I could handle it, but he encouraged me to believe in myself, so I decided to give it a try. He wanted me to share one of my skills, fishing, with the entire school through a video.

I quickly figured out what to do and took some photos and videos while fishing, and then I put them together to make a simple video. Mr. Kai added some commentary, and it was ready to be shown to the whole school. I have to admit that it was a little embarrassing, but I did it. And you know what? It was actually easier than I thought.

When the day came to show the video to the entire school, I felt a mix of excitement and

nervousness. As the video played in front of my schoolmates and friends, I could feel their attention and interest. To my surprise, the response was overwhelmingly positive. Many students and teachers approached me afterward, expressing their admiration for my fishing skills and the courage I took to share them.

Through this experience, I learned so much and gained a tremendous amount of confidence. I discovered that taking risks and showcasing our abilities can inspire and motivate others. I realized that we all have unique talents waiting to be discovered and shared. I would like to encourage my fellow schoolmates to step forward and embrace their own passions and talents. If you are interested, you can be the next one to share.

It is a great honor for me to share my experience of creating a video for English Tuesday's student sharing.

When Mr. Kai asked me to make a video, I felt really happy, it meant a lot to me that he trusted my abilities. However, I also felt a bit nervous because I had never made a video before. But I decided to give it a try.

During the process, I faced different challenges. One big challenge was that I didn't have enough photos because I had never taken photos while running. It made me quite worried. Luckily, with lots of online resources I found, I was able to gather enough content to finish the video.

This experience of sharing as a student has had a big impact on me. It has made me want to encourage others to try too. I believe that everyone can share something they are passionate about. For me, running is something I really enjoy. Although I think I am not good at it, I still hope to inspire others to try and see the benefits it brings.

This journey of sharing has helped me grow a lot. The accomplishment I got from this experience is hard to put into words. It has shown me when we step out of our comfort zones and share our passions, we can inspire others and discover our own inner strength.

STUDENTS' SHARING

5C Kyle Leung

This is the first time I have ever done "Teacher of the Month", and I was both excited and nervous when I found out that I had been selected by the teacher to do the interview. The teacher is my Secondary 3 Mathematics Territory-wide System Assessment (TSA) Teacher, Ms Lam. Ms Lam is beautiful and has such a good personality, also a very communicative teacher.

Since this was the first time in my life to interview, I was quite nervous as I had no experience in interviewing others, and even the speed of speech and reading sentences were not as fluent as before, but fortunately, I had my team by my side, who always support me.

Ms Lam was very nervous on that day. During the shooting, she mispronounced some sentences, but she was not discouraged and continued to

finish the shoot. Maybe that's why she can be a teacher. From the interview, I learned that Ms Lam likes music, she likes to play the violin very much and her technique is quite good.

Ms Lam also said that when she was a child, her English was not good. When she was in the fifth grade of primary school, she could not spell the word "ice cream". However, with determination, she practised pronunciation and improved her fluency. This made me admire Ms Lam very much.

This interview with Ms Lam was very rewarding, we got to know Ms Lam and improved my speaking ability. I'm grateful to the English Society for giving me this opportunity.

Laboratory technician Mr Issac Chan

It has been a privilege to be invited to the interview in "Teacher of the Month" organized by the English Society. My position as a laboratory technician does not exactly fill the bill, but still, it is delightful to have such an opportunity.

I believe it is high time for me to applaud the crew on this interview. From the hosts to the video team, all have shown dedication on perfection. From the wordings and interactions used on script to the best angle that captures the best of us and the humility of the student crew on asking guidance from the teachers, their hard work on arousing an error-free vibe for the interview should be commended.

Learning English is a challenging journey,

not merely about acquiring knowledge, but also about the determination to progress. After a long day of studying, finding the energy to learn something new can feel like an uphill battle. Yet, we all share the same desire for better English skills. Curiosity has always been my driving force, but it is diligence that ultimately leads to success.

Improving English requires more than just hard work. I encourage students to embrace new words, phrases, and sentence structures. Equally important, adopt a fresh mindset when approaching English, viewing it as an enjoyable pursuit rather than a subject. We empower students to be brilliant and surpass boundaries, unlocking their full potential.
